Updates I033385-001

Hello. My name is Ex. 6 PP – personal name and I'm from New Jersey. On recommendation of a vet, I purchased a small Seresto flea collar for my dog, Pierre. A few days before 6/1/2020 I put the collar on him. It was purchased at Petsmart in Bridgewater NJ. On June 1st(he had the collar on 2 days), Pierre was panting and having trouble walking and balancing. I was cooking and saw something was wrong. He fell over on his side, had a seizure and stopped breathing. He died in my arms in my living room and we went to the animal hospital . It was too late.I was so traumatized. Had I known I would have researched this product before buying it. I found a support group which everyone had a similar experience. -001

I called Bayer and they gave me a claim number, said they were sorry and said the product was not harmful, but the woman said older and younger dogs had died from the product. The collar killed my dog, and I don't understand how it is still on the market. I don't know if you are investigating this product, but I would like to be included if there is a class action suit regarding Seresto. My heart is broken, Pierre was my Service dog, and my best friend, and he can't be replaced. I would appreciate if you can notify me if there are any developments. Pierre was 10 years old. Any help with this matter is appreciated.

Sincerely,

Ex. 6 PP – personal name
